## OmniView® SOHO Desktop KVM Switch

SHARE ONE MONITOR, KEYBOARD, AND MOUSE BETWEEN UP TO FOUR COMPUTERS

The Belkin SOHO Desktop KVM Switch lets you share one monitor, keyboard, and mouse between two or more computers, saving space on your desk and reducing equipment clutter. The sleek, new design incorporates a built-in USB 2.0 2-port hub with one of the ports conveniently located on the front. This is perfect for connecting an MP3 player, printer, scanner, or any other of your USB devices to the KVM Switch while allowing computers, also connected, to access them. Sensitive push buttons on the front allow for easy switching, and independent audio-switching means you can play music from one computer while accessing files from another.

### SOHO Desktop KVM Switch Features:

- **OS independent** - full compatibility with PC, Mac®, and other operating systems
- **User-friendly design** - front-panel buttons with LED indicator lights provide easy to access switching between multiple computers
- **Advanced switching capable** - hot-key switching provides instantaneous access
- **Independent audio switching** - allows the user to switch systems being accessed without switching audio output; great for streaming audio
- **Peripheral sharing** - built-in USB 2.0 Hub (on select models)
- **Multiple video types supported** - VGA and DVI available (on select models)
- **Multi-platform support** - PS/2 and USB compatibility (on select models)
- **3-year warranty** - Belkin's assurance | **Quality. Service. Value.**

Models depicted above are (back view) F1DD104L and (front view) F1DD102L.

\*USB hub available on F1DS10XL and F1DD10XL series only. 2nd USB hub located on side.

## Package Contents

- SOHO Desktop KVM Switch
- 2/4 All-in-One Cable Kits, 6 ft.
- 9V, 1.1A DC Power Adapter
- User Manual
- Quick Installation Guide
